

Water Status

Hyperlocal weather dashboard for everyone! Well for farmers and river neighbours for now, but in the future... FOR EVERYONE!

WHY?
mini

Is it actually raining?? Or somewhere here? Maybe?

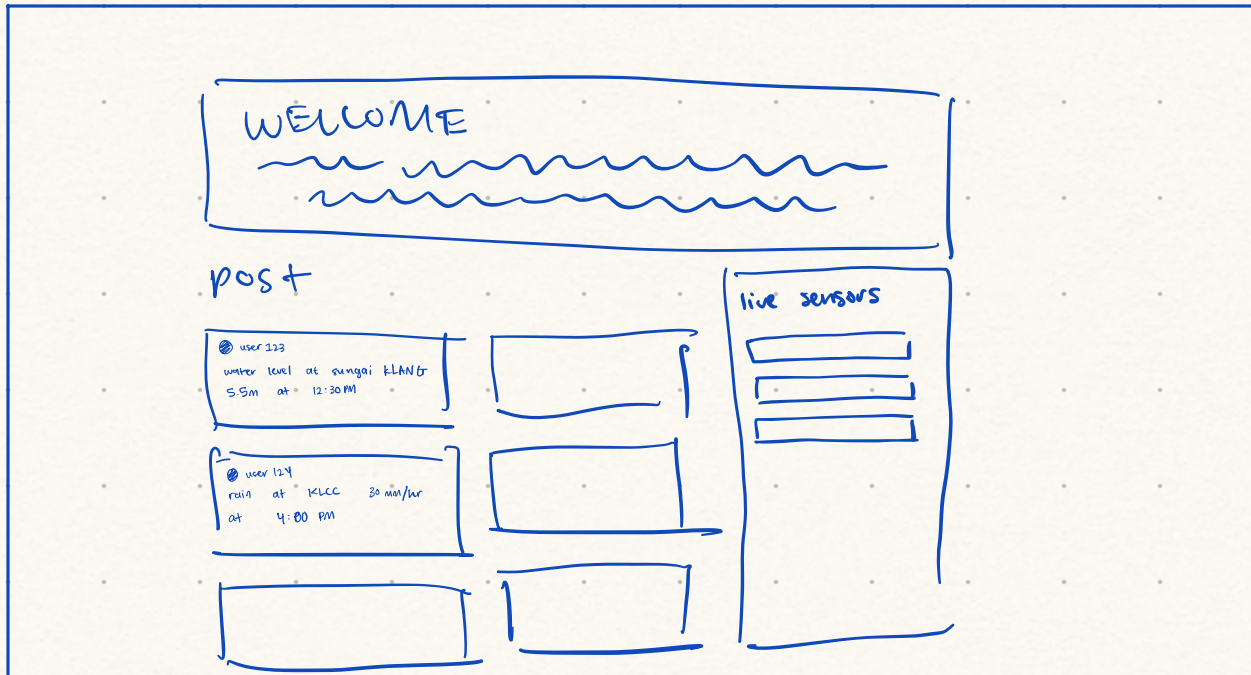

WHO?
mini

- Farmers (stop guessing!!!)
- River Neighbours (Flood risk management + economy)
- City users / Commuters (choosing routes)
- Partners → NGOs, councils, universities (research)

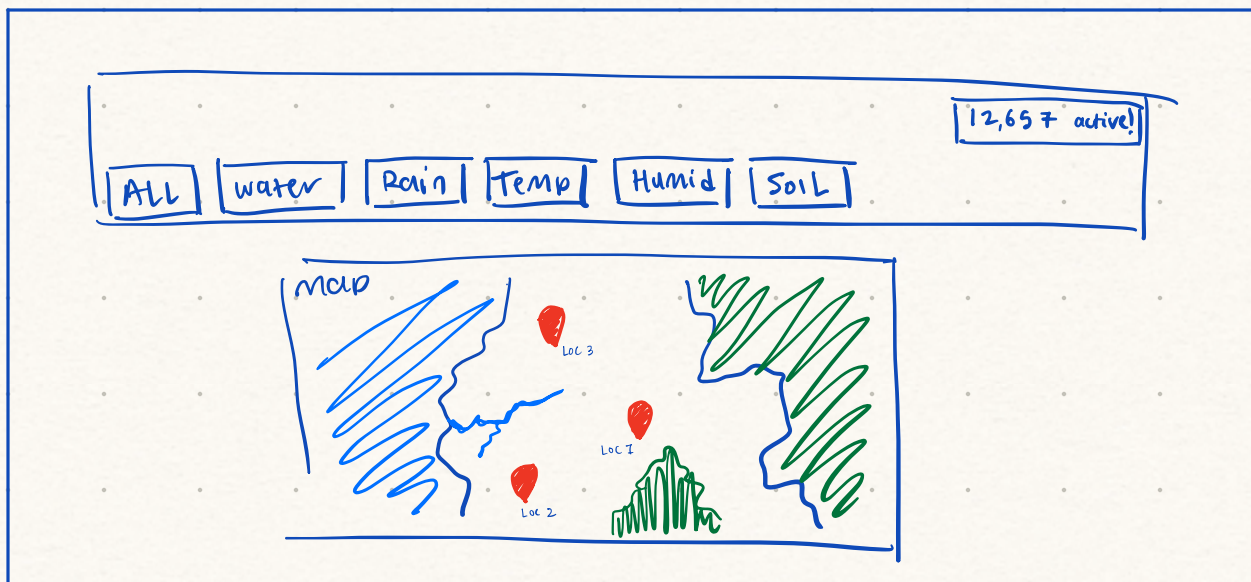

PAIN?
mini

- Generic forecast
 - ↳ normal apps make a 'blob' of weather event
- Rumours vs evidence
 - ↳ whatsapp group spreads info, but is it authentic?
